## Ashland University To Build Dwight Schar College of Nursing in Mansfield

**On June 16**, Ashland University broke ground for the construction of a state-of-the-art nursing facility at the corner of Trimble Road and Marion Avenue. A Richland County Foundation grant of \$250,000 over five years will help support the building project. "The decision by Ashland University to locate in Richland County near MedCentral will have a significant economic impact in Richland County while advancing health care and higher educational opportunities region-wide," commented Board Chair, Sid Foltz III. The new campus is expected to bring \$12 million annually to the community through job creation and commerce. This is in addition to providing temporary jobs during construction for more than 100 people.

The nursing college will help fulfill the critical need for nurses as baby boomers age and people live longer. Despite this increase in

demand for qualified nurses, nursing schools have not been able to keep up with the national demand. But with the new building in Mansfield, the College of Nursing will be able to double its enrollment to 750 students within five years. The college offers the only baccalaureate degree within a 50-mile radius. Within five years, they plan to initiate a Master of Science in Nursing and a Nurse Practitioner Program.

Being on campus for the first two years in Ashland and then at the Mansfield campus during their junior and senior years will provide the full college experience for nursing students. Clinical training will be at MedCentral Health System and Samaritan Hospital. The Mansfield campus will include 12,000 square feet of contemporary simulation labs and nine additional classrooms to meet growing class sizes.

# City Pools Open with Help of Generous Donors

For the third year, generous donors have made it possible to open city swimming pools when the City of Mansfield's budget couldn't support their operation as a result of tough economic times. Donations totaling \$61,000 from Donor Advised Funds at the Foundation provided necessary dollars to open two of the four swimming pools: Liberty Park and Linden. Grants were made from the Gorman Fund, the Jeannette C. Hartman Fund, and from three anonymous funds.

## Progress Achieved as P-16 Continues Work

The regional P-16 Council, Succeed and Prosper-Ashland, Richland, Crawford (SPARC), formed in 2008 as a network of networks continues its progress in achieving the two established ten-year goals. The first goal identifies the need to increase the number of high school graduates who pursue some kind of post secondary education or certification; the second, to increase the readiness of children entering kindergarten.

Since its inception SPARC has been responsible for providing all middle school students in the area free access to the ACT's assessment tool,

EXPLORE. Twenty-nine area high schools have had free access to the ACT planning tool, PLAN. Key to the success of both of these assessment tools is the follow-up that is provided through school counselors and ACT- trained volunteers.

Recently, the University and College Access Network (UCAN) and SPARC merged their efforts under one umbrella. This strong collaborative effort helped to attract a \$350,000 grant from the Ohio Board of Regents. Additionally, a \$22,500 grant from the Great Lakes Higher Education Guaranty Corporation will help the organization to further high school readiness.

## Scholarship Program - \$400,000 Awarded

The Foundation awards hundreds of scholarships each year from more than 50 separate scholarship funds. The funds are established by individuals, families, and organizations to support postsecondary education and often are named in memory of loved ones. In addition, the Board of Trustees allocates grant dollars for the annual scholarship program from Unrestricted Funds in the Community Endowment. For the 2011-2012 school year the amount was \$100,000.

### University Club Scholarship Fund Awards \$36,000

Since the fund was established in 2007, \$117,500 in scholarships have been awarded to 55 students. The fund was established by the University Club Educational Foundation with a gift of \$3 million from the estate of Mansfield native, Jim Weldon. The funds were named in memory of Jim and his parents William and Helen Weldon. Students must apply through the Richland County Foundation general scholarship program and meet requirements of financial need.
